We provide specialized and comprehensive solutions.

Based on the industry expertise of our underwriters, Drescher Insurance can offer technology-specific products you need to protect your business.

The **Technology Errors & Omissions (Tech E&O)** policy is one of the best in the industry with innovative coverage features and the flexibility to meet your unique risk profile. Our underwriters can add this coverage to your general liability policy so you can avoid gaps in protection without creating unnecessary overlaps.

NetProtect brings together first- and third-party cyber coverages to set a high industry standard for network security, Web content and privacy liability protection. First party coverage is available for extortion, business interruption, loss or damage to a network, extra expense and e-theft. Third party liability covers electronic media content, privacy liability and security liability.

NetProtect Essential is designed to meet the network security and privacy liability needs of small- to mid-size companies. This policy brings together these two basic cyber coverages essential to any company relying on data to run their business.

Passport and **WorldPass** policies provide protection for U.S.-based businesses conducting business internationally—from employees traveling overseas to opening foreign offices.

This material is for informational purposes only. All statements herein are subject to the provisions, exclusions and conditions to the applicable policy. For an actual description of all coverages, terms and conditions, refer to the insurance policy. Coverages are subject to individual insureds meeting underwriting qualifications and to state availability.
